

Charles Noyes Kinney
Professor of Chemistry Drake University
State Chemist of Iowa
Des Moines, Iowa

3. 9. M.

June 13-14, 1911.

Dear friends of '07:

Although not a member of the class, I certainly do appreciate the privilege of being with them on this memorable occasion.

How many changes will come during the next five years no one is able to predict.

The clock now striking three and I have been up since three thirty this morning yesterday.

I sincerely hope the chain will not be broken during the years that are to come and may the rich blessings attend every one.

Sincerely

Bessie Ingham
