

I wish there were some more of Ginger Ale in this
bottle, Does age improve ale? then, put in a bottle for me
next time.

I hope my wife will not be present when these letters
are read, I never intend ^{to} tell her how late I stayed up.
Lynbeck brought his girl, and I suppose they are telling
us about the new home they expect have before this bottle
is opened, Best of wishes to you both.

If the rest of you don't know any more than I do,
it might, there will not be enough in them to pay
for trying them up.

I expect to be in Missouri when this reunion
comes off.

Drink a glass for me
