

Letter #10

3- A.M., 1911 - Dear old '07's,

In the morning by the moon-light we have sat all night and listened to the reminiscences of days of yore. But our Father still insisted we should leave another parchment and in spite of All resistance, I am writing here my will:

Blessings on you, few or many

When you meet at old D.U.

Whether present or far absent,

I gladly send my love still true.
