

## Letter #4

At Father & Mother Kinney's

June 14th 1911. 2.45- A.M.

Dear '07's;-

My what a time we've had all day yesterday, and what a good start on another good time today! Twelve babies in the class. New husbands and wives everywhere. Anna Rehman-Palas is sitting on the floor as usual. The jug is to be a regular re-union feature. Janette not married yet. Oliver ditto. Both bearing up well. The class is very sympathetic. Now it is "Dr. Lineback", "Dr. Hall," "Dr. Stauffer", "Dr. Kent". Lewis has a compopulated(?) horse and buggy up in Zearing (?). He has a funeral and a half a month. No weddings. Cabbage has a little Cub. Artie looks her = peeked. He looks seared also. This is because Anna is going to do the cooking hereafter. Father and Mother better than ever. Drake is doing grandly. Chiefly because she has had the benefit of four years of '07 alumnus work. The great class of '07 has been making good. Only a few have changed from their life-work. Whoever opens this jug, give a thought to your absent ones. Do not fail to provide for a class letter every year.

Yours Forever,  
C.J. Morris
