

## Letter #9

I wish there were some more Ginger Ale in this bottle, Does age improve Ale? Then, put in a bottle for me next time.

I hope my wife will not be present when these letters are read, I never intend to tell her how late I stayed up.

Lynneback(?) brought his girl tonight and I suppose they are telling us about the new home they expect have before this bottle is opened. Best of wishes to you both,

If the rest of you don't know any more than I do, tonight, there will not be enough in them to pay for digging them up.

I expect to be in Missouri when this reunion comes off.

Drink a glass for me,

H.S. Lewis
